Verbal Description

Elongated U Strap handle from a censer. Joiner piece is visible.

Top of handle is very smooth & does not show striations. Underside of handle is a bit more lumpy - has light ~~stains~~ remnants of mat marks. Joiner piece is 4x same diameter all around & the clay used to help push it in is not very well smoothed over. Sides are not cut totally flat, but are more sort of rounded. No burning or exposure to heat is visible. No paint, slips or other decoration.
